

**A REPORT ON THE FEEDBACK RECEIVED FROM STUDENTS, PARENTS,
ALUMNI AND TEACHERS DURING THE YEAR 2020-21**

The IQAC, Kamargaon college, has been applying the feedback mechanism for an overall development of the institution. During the year, feedback has been taken from students, teachers, alumni, and employers to take stock of the quality of education in the institution. Following are the findings from the feedback.

Students' feedback: According to most of the students, the UG course syllabus is satisfactory, and the classroom transactions are beneficial. In their feedback, the responded well in terms of maintaining a healthy relation with the Career Guidance and Counselling Cell. Again many of the students responded that they would go for higher education and apply for jobs as well. The students also responded well in terms of practices by departments for development of skills. Moreover, most of the students responded that they achieve satisfactory behaviour inside the campus. After all, the students responded the questions and offered their valuable feedback for improvement of the institution.

Parents' feedback :

The guardians who gave their feedback expressed their satisfaction over the facilities in the college. Parents opined that they were satisfied with the progress of the students. The Parents also responded that the institute address grievances whenever any and assist the students. The parents also remarked that they maintain healthy relationship with the institution. They found the sports facility in the campus adequate and expressed their happiness in the achievements of the institution.

Teacher's feedback: The teaches also opined in their feedback that the infrastructural facilities provided by the institution is satisfactory. The teachers also expressed great pleasure in the context that the institution has increased the number of IT facilities for making the teachers and all other stakeholders ready for the competitive world.

Alumni feedback:

The alumni is closely associated with the institution. In their feedback, the alumni responders expressed pleasure in the facilities provided in the campus. The responders expressed happiness in promoting sports culture among the students in the institution. After all the alumni expressed happiness and wanted to make close and healthy relationships with the institutions in the coming days.

After all, the stakeholders responded in their ways and offered their hands of support in improving the institution in arenas.
