## 15. Suggestions for further development of the institution.

27 responses

Very good

Yes, work hard

Kamargaon college more than two stream arts and science. But college only one stream arts.

I have no any suggestions, the development of the institution is too good!

No doubt this college has all the facilities but if it will have a boy's hostel that will be well and good.

Suggestions:

1. To provide computer courses properly.
2. To provide ICT based learning in regular classroom.
3. Encourage the students to participate cocurricular activities and competitive examination.

Everyone should continue to do well

Addition of diverse minds and manpower

Digital class room

needed Higher facilities

Digital class room

Devloped to the digital classroom.

Needed ncc course

Firstly, I want to say that our college is perfect to study. There professor are good however I want to suggest about the library, Store some extra books.

Lots off good wishes for the prestigious college.

One indoor stadium

It should be a available teacher in subject wise....ect

Toilet should more hygenic.

career counseling session for future settlement

Infrastructure development, avail sports facilities

Very strong and good teacher

NCC added in the college

.

College can organization seminar,group studies, field studies, internship or clubs where student can join to expand thier knowledge.what student learn some of the things in the class allow them also apply into something practical..

I am proud to have student hostels on campus. Where girls are protected and better education is seen than ever before. That's my feeling.

Introduce professional course like BSW, and any other

Thank you for information

The boy's toilet should be supplied with water.

The teaching quality was good in my college. Faculty members were very helpful, qualified, and knowledgeable. They had great command over their subjects. Our course curriculum was relevant, and I'm happy to my college ....

Every department of the college should always continue to study and take every student forward with new activities. We, the students and teachers, should always strive to maintain the honor of the college as it is today.

I satisfied

Only 2 mam have good explanation style in my department, but one has very low explanation style, He only says what is written in the book! But we want him to explain the subject to us in a broad way , because we understand it ourselves at home and we will benefit more if he explains it in a broad blow that we can understand!

Best college

The college needs a student rest room. Students need to be strict in their classes. There is a need to ensure that the results of the colleges are announced accurately. It is very important to ensure that all students are present in the cultural field or in the meetings. I also think there is a great need for a class on drama. There is a need to ensure that students do not use It's bad food(Sikhor,gutkha etc) in colleges. There is also a need to ensure that the toilet is good.

I think overall everything is good, but the toilet facilities are not so good. the college should focus on that.

Make a playground and give some space to boys of the college.

A cooperative and active union body is required

Everything is well , the college is trying every way possible to develop it's facilities and study - learn system and I want them to continue it.

hazraneha3@gmai

For the development of college that student must be follow the rule regulations and college faculty also do their work properly .

Assamese department

Introducing a digital library system will be useful for students to expand their innovative thought

No comment

To encourage students in creative works and sports, a good college should have various performance clubs and an active sports academy as well

By arranging group discussions, debate competitions, quiz contests and online seminars, students will get more interest in education, hence, engage more in the course of learning.

## 11. Any other suggestion for overall development of our college?

22 responses

No

Need well equipped infrastructure

The class rooms need upgradation.

Pure drinking water facility should be provided in various corners of the college.

Nothing

Technological facilities should be improved Proper internet connectivity should be provided in the college campus. More research based work should be organised.

Internet facilities should be increased.

More courses can be introduced according to the local needs. Number of teaching faculties can be increased.

We need a boys hostel and indoor games stadium in the college.

Should be increase ICT facilities.

1. Infrastructural development may be upgraded.

2. Technological intervention in teaching - learning may further be implemented.

3. Library may be upgraded to digitalized library.

Through the introduction of more and more vocational courses students could be provided with practical knowledge.

Hygenic departmental rooms and washroom

Development measures should be taken for overall development.

I Improv classroom facilities and infrastructure.

Have to improve internet connectivity

More teaching department should introduce

Students toilet facilities available in the college needs extra care to make it more hygienic. The college has no its own play ground facility, which needs attention of the local community.

Classroom and infrastructure.

Introducing commerce stream with specialized courses in digital marketing would enrich students' educational experience and better prepare them for today's job market.

Emphasis should be given on development work.

To foster overall college development, We have to prioritize a comprehensive curriculum review to ensure relevance and innovation, while simultaneously investing in robust student support services to enhance academic success and well-being.
